OUR SERVICES

Stanic Industrial Supplies and Services has become a leading specialist in the areas of Personal Protective Equipment Corporate Clothing, Gifting- Hand and Power Tools, Electrical Cables, Abrasives, Welding Consumables, Lifting Equipment and Power Tools. Our typical supply areas are the Manufacturing, Refineries, Foundries, Mining, Engineering and Construction Industries.

WHERE ALL CUSTOMERS ARE EQUALLY VALUED

We are very proud of our high quality and reliable equipment and will ensure that our service exceeds the demands of our customers. Our competitive pricing does not affect our quality or dependability with service being our biggest asset.

SUPPLY PARTNERS

Our relationships with leading global and local suppliers has allowed us to provide a product range that is as wide as it is comprehensive. Our supply partners form an integral part of our success and are critical in providing additional value (such as training and technical support) to our customers. These relationships have become stronger over time, and we collaborate as much as possible to find products that are functional and provide answers to real workplace problems. The expertise of our partners is essential in reinforcing a product range that has been built over many years and we are more than comfortable connecting them with our customers where need be, to ensure that the correct advice and solution is found and provided as and when needed. We continue to seek new products and services to add to our existing offering, which can be viewed in our catalogue. We continually work with existing suppliers to find products of reduced cost (with a view to making them more affordable) whilst maintaining quality. Our supply partners are partners in the true sense of the word and the depths of our relationships, forged over the years, provide a solid foundation for our future growth.

OUR VISION

We strive to always provide our customers with the best services and delivery, establishing strong partnership by focusing on their needs and requirements in terms of quality in our products and services
